

## LANGUAGE ACCESS SCRIPT

Good {morning /afternoon /evening}

My name is XXXXX. We want to thank you for joining today's event! OUR {organization/ agency / team} is committed to creating a space that is inclusive and promotes **Language Justice**. Together, we are creating a multilingual space.

Today's event is being interpreted for your convenience and ease of access, and you should see the interpreter(s) on the screen. Two professional American Sign Language (ASL) interpreters are joining us today, and they will **be spotlighted each time they switch**.

If you cannot see the interpreter(s) and there is something we can do to improve language accessibility, please **use the raise hand feature in this virtual meeting or use the chat box**.

As we welcome today's presenters, we kindly remind you all to speak one at a time and at a normal pace (not too quickly). Once again, we thank you for joining us today.
